Basic Fetal Monitoring

LIVE & ONLINE

Learn the fundamentals of fetal monitoring and gain the skills you need to recognize patterns, chart effectively, and communicate with confidence. In this live, introductory class, you'll practice identifying baseline, variability, accelerations, decelerations, and tachysystole, while also developing a clear understanding of FHR categories.

We'll focus on the practical side of fetal monitoring, how to document with accuracy, and deliver an SBAR that sets you up for safe, effective collaboration with your team.

Whether you're a new labor & delivery, NICU, or ED nurse, a student nurse, a doula, or simply curious about the basics, this class will give you a solid foundation and the confidence to grow your skills in labor and delivery.
